

# Strawberry Margarita Mocktail

Recipe Serves 1

This Strawberry Margarita Mocktail has summer written all over it! Zingy, juicy and so simple to make. Start summer the way you mean to go on with our winner of a mocktail.

If you can't celebrate the start of summer without a little tittle, don't worry, we've got it covered! Be sure to check out the Authors Tips at the bottom!

## *Ingredients:*

250g Strawberries, tops removed  
25ml Orange juice – preferably freshly squeezed.  
15ml Freshly squeezed lime juice  
35ml Sparkling water  
1 Wedge Lime, for garnish  
Demerara sugar or coloured sugar – for decoration.  
1 Large handful Ice

## *Method:*

1. Add the strawberries, orange juice, sparkling water, fresh lime juice and ice into your blender. Blend until mixed and slushy. Taste; if necessary add a little white cane sugar to sweeten.
2. Cut the lime into wedges or wheels and gently wipe around the rim of the glass.
3. Pour the Demerara sugar or coloured sugar onto a chopping board and dip the rim of the glass into the sugar. The sugar will stick to the lime juice.
4. Carefully pour the margarita mix into glasses, garnish with a lime wheel and a strawberry.

Serve immediately.

Author Tips...

For a Margarita with a kick (we mean an alcoholic version!) simply omit the sparkling water and replace with;

1 1/2 measures of tequila  
1 measure Cointreau

Then follow the method above, serve & enjoy.
